Overhead Lifts

RGC Advantage

RGC Overhead Lifts raise your boat high above damaging rough water and debris. Adjustable legs allow the lift to adapt to relatively deep water and uneven lake bottoms. The frame is also adjustable to position slings or cradles at the desired location on the boat hull.

Features & Benefits

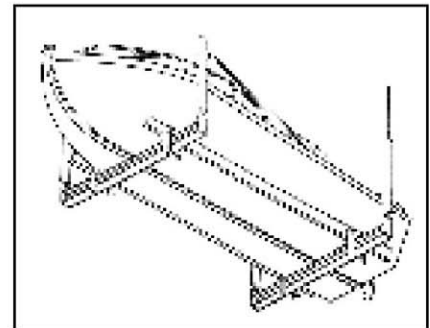

- Hot-dip galvanized frame.
- Easily installed with basic hand tools.
- Electric power drive protected by G.F.C.I.
- Reversing switch returns to neutral and stops boat at desired height.
- Sealed gearbox.
- Frame adjusts to fit your boat's dimensions.
- Adjustable legs accommodate range of water depths.

Accessories

- **I-Beam Cradles** - Cradles provide full length support of boat hull and are ideally suited for choppy waters. *(Wood bunks are not included)*
- **Remote Control** - Kit consists of a control panel and remote transmitter, which enables you to raise and lower your boat from up to 100 ft. away.
- **Catwalk Brackets** - Brackets permit easier access to your boat. They mount to the legs of the lift and support a wood plank to walk on.
- **Nylon Slings** - Adjustable length slings conform to and support boat's hull. Sold in pairs of 2 in., 4 in. and 6 in. widths with lifting hardware and weights..
- **IB Skid Plates** - Make it easier to drag your lift over sand and prevent excessive sinking in lake bottoms.
- **IB Wheel Kit** - Kit consists of 4 wheels, brackets and axles. Makes seasonal installation and removal easy.
- **Blocks with Brass Bushings** - Carton of blocks with brass bushings for extended service life. Call the factory for details. 800-831-LIFT (5438)

Overhead Lift with Adjustable Slings

I-Beam Cradles

Specifications

Model	IB3000E	IB4500E
